MD. SIYAM BHUIYAN

Junior Automation Engineer | Software Engineering Graduate | Data Science Major

Dhaka, Bangladesh +8801731935051 siyambhuiya44@gmail.com github.com/SiyamBhuiya
linkedin.com/in/siyam-bhuiyan

PROFILE

Software Engineering graduate (Data Science major) with professional experience in AI automation and machine learning. Skilled in building predictive models with **Scikit-learn**, exploring deep learning including **basic CNNs** via **TensorFlow** and **PyTorch**, and deploying automation pipelines with **N8N** and **Make.com**. Passionate about applying ML fundamentals at the intersection of data science and intelligent systems.

TECHNICAL SKILLS

Automation & Integration	N8N, Make.com, Shopify API, CRM Integrations, Airtable, Notion, ClickUp
AI & Machine Learning	Scikit-learn, TensorFlow, PyTorch, Basic CNNs, LLM APIs, Multi-Agent Systems
Programming & Web	Python (Primary), JavaScript, Java, React.js, FastAPI
Databases	PostgreSQL, Redis, MongoDB
Dev Tools	Git, GitHub, Docker, Postman, VS Code

WORK EXPERIENCE

Junior Automation Engineer
Apr 2026 – Present

SM Technology
Dhaka, Bangladesh

- Designed and built end-to-end automation workflows with **N8N** and **Make.com**, connecting multiple **CRM platforms**, **Notion**, and **ClickUp** to eliminate manual, repetitive business processes.
- Integrated the **Shopify API** into N8N pipelines to automate order management, inventory synchronisation, and customer notification flows.
- Consumed and integrated **LLM / AI Model APIs** to embed intelligent, context-aware features into internal and client-facing products.
- Worked with **PostgreSQL** and **Redis** for structured data persistence and high-performance caching layers.
- Containerised services with **Docker** for consistent, reproducible environments.

EDUCATION

B.Sc. in Software Engineering
CGPA: 3.24

Daffodil International University | Major: Data Science
Feb 2021 – Dec 2024

Higher Secondary Certificate (Science)
GPA: 3.83

Govt. Kaliganj Sramik College
2018 – 2020

CERTIFICATION

AI Agent Development Bootcamp

Ostad | Oct 2025

AI agent workflows, LLM integration, multi-agent systems.

LANGUAGES

Bangla — Native

English — Professional Proficiency

PROJECTS

Multi-Agent System (FastAPI)
GitHub →

Multi-agent system routing queries to specialised roles via FastAPI and LLM APIs.

`Python` `FastAPI` `LLM APIs` `Multi-Agent`

Multimodal Inference APIs
GitHub →

FastAPI endpoints for Speech-to-Text and Image Generation inference.

`FastAPI` `Speech-to-Text` `Image Gen`

AI Support Assistant
Colab →

LLM-powered chatbot handling customer queries with contextual memory.

`Python` `LLM APIs` `NLP` `Chatbot`

Thesis Portal
GitHub →

React.js web app to track thesis progress and milestones.

`React.js` `JavaScript` `Web App`
